

## Assignment #7

Look up 3 different mental illnesses. Write a paragraph for each one telling me a little about the illness and some behaviors/signs/symptoms that someone may be showing who is suffering from this disease. These don't have to be long and remember, I'm a health teacher, not an english teacher!

I also want you to look up and tell me 3 places you could get help if you think you or someone you know may be suffering from a mental illness. This could be a phone hotline, website, group, or people of certain professions. I would like you to BE SPECIFIC - find actual places/people you could contact for help. Don't just tell me "a counselor". And it must be people trained to help with mental illnesses. It can't be "mom", "Uncle Harold", or Mr. Ayers.
