Write about your dream job. What is it? What makes this a dream job?

My dream job would be to train animals. I love animals and I think it would be fun to work with them all day. I have seen shows at Disney World and am in awe of the tricks and stunts the animals are capable of doing. I have tried to train my own dogs to do tricks and some have been successful attempts and others not so much. I have always wondered how the trainers train the animals to do things (besides giving them food). I know that some animals will mock whatever action a person performs, but what about others? How are they trained? This might be something I consider doing when I retire.
